## Student Testimonials

**Participant A, Japan (age: 10 years)**

I was so happy that I joined the Club Keiki program! I was able to make a lot of friends, participate in fun activities, and learn English. Even though I have studied English in Japan, I always had trouble understanding what the teacher said. However, after a few weeks of participating in the Club Keiki program, I can understand more of what the teacher is saying. Now, I feel that I want to study English more, and maybe I can study abroad in the future!

**Participant B, Japan (age: 13 years)**

I enjoyed every single day. I was a little nervous on the first day since there were many students that I didn't know; however, after riding the banana boats in Hawaii Kai, I began to relax and enjoy myself. I could make many friends from that day on. Also, I really enjoyed taking English classes. At first, I was hesitant to speak because I was afraid that the teacher wouldn't be able to understand what I said. But the teacher helped me a lot, and finally I could speak enough so that my teacher and classmates could understand me. It made me so happy that I want to attend the Club Keiki program next year!
